BIOGRAPHY

Chad has served the construction industry since 2007 by providing solid insurance and risk management solutions that help insulate his clients from unexpected loss. Chad works closely with his clients to identify hidden gaps or strengths within their insurance policy.

Chad joined Bender Insurance Solutions in 2012 and has been recognized for his corporate citizenship and his desire to serve his clients, coworkers, and community. Chad also finds time to work closely with industry related Associations such as:

- RCAC (Roofing Contractors Association of California) where Bender is the endorsed broker and Chad sits on the membership committee.
- North State BIA (Building Industry Association) where Chad sits on the Trade Builder Alliance Council and is the chair of the education committee.
- HomeAid Sacramento where Chad is a past Board Member and sits on the site selection committee.

Chad is a native of Roseville where he currently resides with his wife and six children. Chad's goal is to make the construction industry, the region, and certainly his clients better than when he found them. He accomplishes this through trust, honesty, and experience.
