ABOUT HEATHER

Heather grew up in the scenic town of Mt. Shasta, California, and relocated to Sacramento to pursue her education. She successfully completed her studies at California State University, Sacramento, graduating with honors. Beginning her professional journey at KPMG, Heather gained valuable experience in the field of audit. In 2008, she ventured into the private sector, assuming the role of controller for a prominent civil and environmental engineering firm. Heather's professional trajectory shifted towards the insurance industry in 2013 when she assumed the position of controller at a local agency. In 2020, Heather joined Bender Insurance Solutions, where she now oversees financial management, budgeting, accounting services, and provides leadership to the administrative team. Heather takes great pride in being part of the region's only employee-owned agency.

Currently residing in Lincoln with her daughter, Lila, and her playful goldendoodle puppy, Ziggy, Heather cherishes the natural beauty of California. She frequently enjoys summer camping expeditions to the lakes and beaches, taking advantage of the state's diverse outdoor offerings. In her leisure time, Heather indulges in activities such as biking, hiking, and kayaking. Fueling her passion for softball, she actively participates in the sport and finds fulfillment in assisting with coaching her daughter's softball team.
