ABOUT ISAAC

Isaac Hanley, an Auburn and Newcastle native, is an Account Manager at Bender Insurance Solutions. He began his journey in insurance somewhat by accident, after obtaining his first policy on his own and not fully understanding the role of an insurance agent. BIS provided him with the opportunity and education to grow into the agent he is today. Isaac values the chance BIS gave him to work in the professional world and remains grateful for the opportunity.

Isaac is a devoted family man, having been with his high school sweetheart for over 17 years. Together, they have three boys who keep life adventurous. Isaac is passionate about rockhounding, making music, and exploring new places with his family. He also enjoys metal detecting, collecting rocks, crystals, and old coins, and has a fully equipped music studio in his office.

Isaac's life is enriched by his love for learning new instruments, his dedication to his family, and his desire to provide for them.
