ABOUT KASSEE

Kasee was born in Oklahoma but relocated to California during her teenage years. Throughout her education, she focused on computers and writing. Kasee attended R.O.P computer classes and Bible College until its closure. She gained experience and expertise in various fields, including Emergency Services, Construction, and Self Defense. During her tenure as the head instructor at a self defense school, she crossed paths with Jason Theis, who later introduced her to Bender Insurance Solutions. Initially starting as a phone operator during company outings like Employee Appreciation Day, Kasee was offered a part-time Facilities and part-time loss runs position. After obtaining her P&C License, she transitioned to a full-time role in Commercial Lines as a Certificate Service Representative and Loss Runs Technician. Her dedication and hard work paved the way for her progression to a Workers' Compensation Unit Statistical Technician and finally a Claims Technician. After a brief break from Bender, Kasee returned as a Bond Technician.

She joined the Bond Team in September 2021 as the Bond Technician and aspires to ascend to the role of an Account Service Manager.

Kasee has been happily married for over 24 years and cherishes spending quality time with her family and friends. Together with her husband, they enjoy creating videos and engaging in Bible Studies through video chats and in-home groups. Kasee's love for reading and studying extends to a broad range of topics, including history, personalities, and fiction. Additionally, she finds enjoyment in playing Nintendo Switch games with her family.
