ABOUT NANCY

Nancy had the pleasure of growing up in the great states of Nebraska and New Mexico. After graduating from the University of New Mexico with a BS in Business Education, she got a position as an Office Administrator with Business Men's Assurance and this is when her insurance education began.

With an opportunity to leave the Land of Enchantment, the company transferred her to colorful Colorado. Then it was time to be closer to family and Nancy was able to transfer to sunny Roseville, California.

She was with BMA for 19 years before they closed their doors. As one door closed, another opened, and this led her to Mitterholzer & Associates. With that came adventure, new friendships, and more education. The Mitterholzer Group moved to Bender Insurance Solutions in 2011 and Nancy fit in perfectly with their team.

Nancy enjoys working with people, helping solve problems and trying to brighten someone's day. After 43+ years, she is still in the game and is so thankful for all of her "Insurance Family". Nancy and her husband live in Folsom and are proud parents of two sons and two amazing daughter-in-laws. The grandchildren definitely bring exciting adventures. Early morning walks and yard work help keep her of sound mind.
